People can be entirely made over by a scientific course of food and drink. Even old, chronic diseases and hereditary allments are eliminated by the wonderful processes of reconstruction under modern methods of feeding.

An illustration is worth attention. A lady written: "I feel this letter will exceed all reasonable bounds, but how can I be brief when I have so much to tell. First about myself. I inherited nervous headaches and half invalid condition. I had to give up tea and coffee, but some months ago a friend insisted that I start on Postum Food Coffee and Grape-Nuts breakfast food.

"I prepared the coffee myself, carefully according to directions on the package, and used good cream. The first cup seemed the most delicious and satisfying drink I had ever tasted. I drained it and filled it again. I was impressed with the idea that it was just what my starved nerves demanded. So I used Postum and Grape-Nuts with good rich cream. Now for about four weeks I have been entirely free from headaches and nervousness, and am feeling unusually strong and well. There has also been a marked change in my appearance. I am Grapears old and my hair is very white, but the haggard, care-worn look is entirely some from my face, my cheeks and body have filled out, the face shows a fine color, flesh firm and smooth, eyes clear and lips red. My friends comment on the change and say I look fifteen years younger. They are incredulous when I tell them that skilliful feeding on scientific food like Grape-Nuts and Postum Food Coffee has wrought the change.

"Now as to my son, 25 years old, who has been afflicted with epilepsy from in-

ful feeding on scientific food like Grape-Nuts and Postum Food Coffee has wrought the change.

"Now as to my son, 25 years old, who has been afflicted with epliepsy from infancy. I hardly dare tell the facts, but he is here in the body to prove them. He has had the best treatment in this country; all without perceptible benefit. His memory was gradually growing weaker. At the time I started on Postum and Grape-Nuts he started also, and the change in him has been so wonderful that I can hardly describe it. Now he carries himself erect instead of in his former careless way, his eyes are clear and bright, and best of all, his memory is growing stronger and stronger every day until I am fairly overcome with astonishment. He shows a decision of character-quite unusual and has lately expressed a strong desire to study. I dare not say what hopes his improvement has raised. "It is perfectly evident that bodies and brains can be rebuilt by skillful feeding and that means Postum Food Coffee and Grape-Nuts." Name given by Postum Co., Battle Greek, Mich.

Death of West Pointer Reveals a Pathetic Devotion to Mother in Texas Whom He Supported.

A son's pathetic devotion to his widowed mother is shown in the death of Lieutenant Thomas F. Howard, who committed sufcide in the Missouri Baptist Sankarium early yesterday morning.

Howard came from Boerge Tex., the present home of his mother. He won a cadetship in West Point through a competitive examination, and until five years ago, when he was stricken with paralysis. he ranked high in the regular army. Paralysis was due primarily to illness in youth.

Howard's mother was dependent upon him for support, and during his service in the army he sent her money regularly every month.

When he was inexpactated for active work he received an indefinite leave of absence on two-thirds pay. The Lieutenant was taken to the Missouri Baptist Santarlum last November. His recovery was then considered hopeless. His lower limbs became useless, and he lived in an invalid's chair.

A week ago it became evident to the physicians at the sanitarium that Howard was losing his mind. He wheeled himself to Doctor Cadwallader's office one day and asked if he might be allowed to address the nurses. The nurses were to have a meeting that night, and Howard had heard them tulking about it.

"The nurses have been good to me," said "The nurses have been good to me." said the man, "and I want to tell them how much I like them."

The letter written to his mother was scaled and stamped. Another letter, addressed to a friend at West Point, was found on the table, and another was addressed to Dector Cadwallader. Lieutenant Howard was 38 years old.

The body will be sent to Boerne, Tex., for burial.

About 2,000 persons were present, who occupied the inclosure in the jall courtyard. Many occupied the tops of the houses and every other point of vantage. A large number came in last night, and the hotels had to lodge the crowd upon cots placed in their offices and hallways, and still many were compelled to walk the streets.

Committee Bill in Illinois Assembly Raises a Storm of Protests From Sherman Crowd.

Schate Measure Proposes to Pay \$12,000 Toward Expenses of a Regiment to Escort Governor to World's Fair Dedication.

REPUBLIC SPECIAL. Springfield, Ill., April 17.-Mr. Lindly's Committee on Municipal Corporations re ported a municipal ownership bill to the

House this morning. Amid a storm of objections from the friends of the Mueller bill, led by Judge Sherman, the measure was advanced to record reading and was made a special order for next Wednesday.

They accuse the committee of trying to kill the entire proposition and taking this meth-ed to accomplish the result.

ROLL CALL DENIED. The friends of the Mueller bill on the committee tried to save it in the House this morning. Through Mr. Clettenberg they presented a minority report, noncon curring in the report of the committee and recommending that the Mueller bill pass. They undertook to get a roll call on the proposition, but Speaker Miller turned a deaf ear to them and tabled their report. The minority report was signed by Messrs. Clettenberg, McIlvain, S. E. "I will not stand this sort of thing," he declared. "When 'Buck' Hinrichsen was clerk of the House he tried it on me and I would not stand it. I will not stand it now. It must be stopped."

The Speaker ordered a verification of the roll on this bill, and it was shown that it had '39 votes. Twelve votes were cast against it. Later in the session, when the membership had thinned out, several bills were passed without a quorum, but they were measures to which no objection were made, and the roll was not questioned.

Mr. Mitchell registered a general protest against the transaction of business in the absence of a quorum, and the Speaker re-

Montgomery's bill which makes women eligible for election as trustees and directors of libraries.

The effect of Mr. Stuart's protest against the policy of the House organization was made apparent this morning, when Stewart was permitted to make the Anti-Saloon League local option bill a special order for next Thursday. It was agreed that the local option bill prepared by the Committee on Elections, which is regarded as a sort of counterirritant to the Anti-Saloon League measure, should be considered at the same time.

Mr. Drew succeeded in getting recognition to clay to call up the fellow-servant bill, and it was made a special order for next Wednesday. Mr. Drew declares that the House organization has been blocking him for weeks on this bill, and that heretofore he has been unable to get recognition to call it up. Mr. Lindly denies that the organization has taken any interest in the bill one way or another.

A companion to the fellow-servant bill is the measure which increases the limit of itability for death damages to \$10,000. This bill has passed the Senate, and after a struggle has found its way to the floor of the House. Both of these bills are opposed by the railroad lobby.

McClenathan's bill to prohibit express companies from doing a money-order business was put on its passage. It became evident on the roll call that the bill could not pass to-day, and further censideration of it was postponed at the request of the author.

REGIMENT FOR FAIR.

senator Dixon introduced in the Senate to-day a bill anoropriating \$12,000 to pay the expenses of a regiment of militia at the dedication of the St. Louis World's Fair. It is designed in the event that the bill passes to have one of the regiments act as an escort to Governor Yates and staff on that occasion.

To is understood that the Governor approves the plan, and there is already considerable sentiment in the Assembly for it. despite the general complaint concerning the large amount of the appropriations made to date. Had the bill been introduced earlier in the session, there is no doubt it would have passed.

In anticipation of the appropriation being made, the militiamen who have heard of the proposed trip are sending in their applications for the privilege of making the piggrimage. Every regiment in the State wants the honor and the Governor will have considerable difficulty in deciding which is entitled to it. Either of the regiments could make a creditable showing, for the Illinois militia is now in better shape than it has been in many years and is well officered and drilled.

It is expected that there will be considerable cutting of House appropriation
